

M V Consulting, Inc.

Why Choose us?

What makes us different

The bottom line of advertising is eyeballs. Getting seen by the people you want to reach, as often as possible, for as little as possible. We understand that.

What we provide is access to the eyeballs of tens of thousands of viewers, 24 hours a day - 7 days a week, that are generally older (with established incomes and interests), educated, motivated, and specific. Why waste money advertising to 16 year olds that wanted to find the latest music video, or reaching seniors looking for hearing aids if that is not your market?

We are found, **without paid placement**, in critical search terms you want to reach like:

*as of 11/6/11

Politics

- GOP Candidate Rank - #1 position on Google
- Presidential Candidate Rankings - #1 position on Google
- Immigration issues current event - #1 position Google
- Richard Hanna, Congressional District - #2 position Google
- When did the bailouts start - #3 position Google
- Kirsten Gillibrand on Immigration - #7 position

Entertainment

- African American Entertainment - #2 position on Google
- Black Entertainment - #7 position Google

This is just a small sample of our reach - we can be found in leading terms on hundreds of searches based on our 6 years of commentary, reviews, event coverage, and interviews.

We've earned our rankings, and you can reach your target market because of it.
